Oxygen-Pro Programmable Air Freshness System

Oxy-Gen Powered is the only technology that guarantees the delivery of fragrance in the air continuously, consistently and accurately for the entire duration of the cartridge life. This precise technology is based on a fuel cell technology that is used in the pharmaceutical industry to deliver drugs to human beings and animals. Oxy-Gen Powered technology is simple, reliable and cost-effective. You can program the dispenser to work for 30, 60 or 90 days, and can select different fragrance intensity levels. Fragrance odor control cartridges with Neutra-Lox odor eliminator.
